## Vulcan Goodwill Day Sparkles As Crowds Bask In Sunshine

Fortune smiled on merchants and businessmen of the Vulcan District Chamber of Commerce Monday of this week.

This was the occasion of their much anticipated experiment in merchant-customer relations, Vulcan's Goodwill Day. The sun came out, the crews went to work and the project was a complete success.

First and foremost on such a day, the organizers had to count on good weather and almost incredibly, following days of solid overcast, cloud and rain, Monday dawned clear, bright and blue and the weather reached almost perfection as the day progressed.

With seeding done, the land too wet to summerfallow and children at school, this outing was neatly timed and through the day the main downtown intersection, Little Bow Pioneer Museum, Armouries, Golf course, swimming pool, Legion Hall and school auditorium all had something to offer these visitors. Except for the late afternoon barbecue at which over 1,000 guests were served, and one or two occasions when twenty-dollar draws were held, there was no steady congestion and the day followed the pattern planned by the businessmen, to offer a variety of free entertainment in a reasonably quiet, relaxed atmosphere.

The brunch-bell rang promptly at 10:30 a.m. downtown and committee heads, Al Dakin, Fred De-Jong and Allan McAskill had 100 customers ready for the first round at the hastily erected tables. The kitchen, manned by businessmen and staffs of local stores, was right on the street and this was augmented by the voluntary help of Howe Glean Jay and staff of the Royal Cafe. In fact these restaurateurs were kept dog-trotting back and forth with trays of flapjacks and bacon most of the morning and also kept extra supplies coming during the afternoon barbecue.

There was a steady demand for bacon, flap-jacks, coffee and milk all morning and at 12:15 it was estimated 500 persons were fed.

The first of five twenty-dollar draws began embarrassingly as businessman Lawrence Richardson was winner. He returned it to be drawn again and this time everybody man Roy McClellan won. He also returned the cash and on the third try it went to Rose Douville.

Under the chairmanship of Ray Wellman, the one-club golf tourney drove off at 1 p.m. in flights of six. About 70 golfers, many of them first-timers, registered and came in hours later to describe the terrific pounding the course had taken.

Low score men's winners using No. 2, 3, 4, 5 clubs and putter were N. Bucholtz, R. Buehler, G. Atkinson, B. Kandt and H. Matlock. High winners were H. Barrell, L. Mitchell, B. Ohler, B. Par-

### Local Golfers Win At Nanton

The season's first open golf tourney was held at Nanton on Sunday, June 5 and five of Vulcan's 10 representatives made the prizes.

Heading the list was Ray Wellman's win of the Men's Championship Flight while Dan Watson won top honors in the First Flight.

In the Ladies Section Thelma Haverly came second in the Championship Flight while Flo Pettie won the Ladies' First Flight.

Bud Haverly then won the popular Horse Race.

Next action is Vulcan's own Anniversary Golf Tourney on Sunday, June 19.

slow, R. Petrosky.

Ladies' low winners using No. 3 and 5 clubs were Thelma Haverly and R. Beagle, while high score winners were I. Ohler and M. Lebsack.

Commodore Allen, who with Drs. A. D. Tompkins and M. Kozol set

up the Little Bow Pioneer Museum on his property, a few years ago, was planning on a morning's work before expecting any visitors but at 10 a.m. the first group arrived and so it continued all day. Over 250 names were listed on the museum register, with some from

Saskatchewan, two from Toronto and one from the state of Kentucky, and it was felt another 250 patrons went through without signing. A courtesy car, a 1927 Chev donated by Bill Richardson of Richardson and Gould Ltd. took visitors from the downtown area to the museum and at the wheel was Roy Fulton, of somewhat earlier vintage. He had been asked for only two hours service as chauffeur but was still having "The time of my life" on the job at 8:15 p.m.

The walls of the Vulcan Armouries filled with painting contributed by the Champion and Vulcan community art classes provided the setting for the afternoon tea organized by business women of the town and other volunteers. This went from 2 to 4 p.m. and provided a welcome interlude or rest and visiting for many. At 2:45, before the 3 o'clock draw, every chair had been put into service and standing room was at a premium.

Continuing throughout the day was another extremely popular attraction at the Legion Hall. This was the gun display by L. D. Halmrast of Warner. In bringing

## You're All Invited . . .

The age-old event, long since established as a "must" for hundreds of district residents, the Lake McGregor Race Meet, goes this Friday and Saturday at the park near Milo.

For veterans of this Meet a rundown of the program is hardly necessary. The thoroughbred racing, pari-mutuel betting, chuckwagons, fun-rides and games for kiddies and dances have become standard to the affair. However for first-timers it should be noted that this is no ordinary rural sports meet. Each day 21 races of various kinds go to the poles and eight of them carry the pari-mutuel betting bonus. The chuckwagons are some of the ones that tour the Western Canada circuit, including the Calgary Exhibition and Stampede, and the whole thing is sanctioned by the CPA.

Another feature attraction is the big parade on Saturday morning which precedes footraces, midway attractions by Garrett Midway, the afternoon races, evening chuckwagon races and dance.

The grounds are practically overrun with sleek horseflesh, attractive girls — among them, three Race Meet Queen contestants — and blue-jeaned cowboys. It isn't going to rain . . . the men who run the show said so, so why not pack up and head out to the lake with everyone else this weekend.

### Throughout County

## Seeding Followed By Rains, Warm Weather Needed

Crop prospects which have looked bright all spring were further improved by last week's rain which came at the completion of seeding throughout the county.

According to reports from 12 Alberta Wheat Pool Stations rainfall for the seven day period ending June 3 ran from one inch at Vulcan to 2.69 at Herronton. More rain fell June 4 and 5 in various parts of the county so the totals up to this week will be greater.

Wheat, oats and barley are showing about three inches of

growth above ground, except in the Lomond-Travers area where early seeding has resulted in four to five inch stands.

Some flax is left to be seeded at Travers while at Pencock, earlier lack of moisture created problems where rye was deteriorating and heading out in the short stage. Also half of the winter wheat was being turned under and reseeded.

Generally though, all agents report crop conditions to be 100 per cent with the only immediate need being warm weather to promote rapid growth.

The weather disturbance which had brought several days of wet cloudy weather to this district, moved on during Sunday night and Monday there appeared a trend towards better conditions with temperatures climbing into the 70's under sunny skies.

Rainfall figures at County points during the past week and since May 1 are listed below:

	May 27 to	May 1 to
	June 3	June 3

### Grandparents Day At Tabernacle

The third annual "Grandparents Day" was held on June 5 at the Vulcan Pentecostal Tabernacle.

The programs in the Sunday School hour and the morning worship service were planned especially for the grandparents. A corsage was given to every grand-mother while a small gift was presented to each grandfather.

A dinner honoring the 22 grandparents present was held in the lower auditorium following the morning service. Mrs. Woodman of Vulcan and Mrs. June Burke of Carmanagay, received a remembrance for being the oldest and youngest grandparents respectively. Mrs. B. Lewis was feted for having the most grandchildren and great grandchildren.

## Former Vulcanite Ray Scott Dies At Castlegar

Raymond Leslie Scott, for many years a well known resident of Vulcan, passed away suddenly on Tuesday, May 31 at Castlegar, B.C.

Born at Travers, the deceased had taken his schooling at Vulcan and had lived here until two years ago when he moved to B.C. He was 49 years of age at the time of his death.

Mr. Scott was an ardent hunter and fisherman and he took part in the first years of the Vulcan and District Fish and Game Association. He was also a member for years in the Vulcan Branch Royal Canadian Legion.

Surviving relatives include, three sisters, Mrs. Dorothea Mansfield of Grande Prairie, Mrs. Chester (Mabel) Rea and Mrs. Lawrence, (Ruth) Orchard, both of Vulcan and two brothers, Walter of Edmonton and Arthur of Vulcan and several nieces and nephews.

Funeral service was held Saturday, June 4 at the Royal Canadian Legion Hall with Honorary Legion Padre Rev. A. Collier, now of Carbon, officiating.

Interment was in the Field of Honor at the Vulcan Cemetery with graveside service conducted by Vulcan Legion president Harris Matlock and an honor guard of Legion members. This was followed by the sounding of the Last Post.

Palbearers were Dr. A. D. Tompkins, Neal Dumka, Leonard Engen, Roger Middleton, Gordie Bell and John Engen. Vulcan Funeral Home was in charge of arrangements.

### EARLY TRAINING

Most children regard dirty hands as the normal state of things. All youngsters should be trained as early as possible to wash their hands thoroughly before eating, to remove dirt and germs.

## Charles Ottewell, 78, Jumps With Jet Set To See People and Places in Homeland

(By Peter Pickersgill)

The sign in his window which often reads "Gone for mail . . . back in a few minutes", should this time read, "Gone to Derby . . . back in a few weeks."

This would mean that Charles Ottewell, Vulcan tailor for 43 years and citizen of this country for 56 years, has gone back to his native England to look up a few friends and retrace some of his childhood steps.

At 78 years of age — this December 21 he'll be 79 — when most elderly people are content to sit at a window, count their blessings and remember the past, Charles is up and gadding about adding to his already wide collection of memories.

At 11 p.m. on Tuesday, May 24 Charles left Calgary Airport by jet, over the polar route to lunch at Prestwick, Scotland at 2:10 p.m. the next day. He is one member of a group flight organized by the Caledonian Society of Alberta but the moment the plane touched down Charles was on his own with about four weeks to catch up on goings-on in and around his home city of Derby, England.

Actually, Charles remarked, "I'm going to try to tour Scotland, Edinburgh, Glasgow, the Isle of Man, down to London and of course that grand resort of Blackpool and other places besides Derbyshire, and then there are so many other people I'm supposed to see for friends here at Vulcan." His chances of fulfilling this schedule appear slim.

In addition to meeting once more with relatives and friends with whom he has been parted since he left in 1910, some of Charles's fond memories will come with a visit to St. Werburg's church where he was a choir boy among 50 men and 30 boys for years and from whence he developed in later years an exceptional tenor voice and a love for music that has been a pleasure in his lifetime.

This delightful search for haunts and friends of former days will include the mention of Canon Talbot, the traveling of once familiar roads and streets, over the same bridges and beyond the cathedrals along the streams to the countryside which, in his mind's eye, has a beauty never duplicated. "Many things will have changed," he says, "but I know enough of the original buildings of Derby are still standing so I won't be lost."

Born in 1887, Charles, following

the usual custom of those times, left school at 14 and two years later began his five year apprenticeship as a tailor.

At the age of 21 Charles was working 56 hours a week including a half day on Saturday and was not taking home enough money to influence the family coffers. "Of course this was in the days when

## Speed Limit Boosted

Hon. Gordon Taylor, Minister of Highways, through communication with Ray Speaker M.L.A. reports that his Department is now prepared to raise the speed limits to 65 m.p.h. by day and to 55 m.p.h. by night on Highway 23 from Champion to the Junction of No. 2. The Ministerial Order being prepared will make this effective as of June 13th, 1966.

### BIRTHS AT VULCAN HOSPITAL

Only two babies were born at Vulcan Municipal Hospital during the month of May.

Born to Mr. and Mrs. Gordon A. Carlson of Champion on May 18 was a boy and born to Mr. and Mrs. David G. Nelson of Queens-town, also a boy.

## Tractor Demolished In Crash With Semi-trailer

An employee of DonRon Sales and Service, Vulcan, narrowly escaped death May 31, when the tractor he was driving on Highway 23, south of Champion, was struck from behind a semi-trailer.

Twenty-one year old Stuart Adams was bringing an almost new Minneapolis-Moline tractor with 100 hours service, up from Lethbridge when a car, followed by the semi-trailer, approached,

also from the south. The car swung out and passed the tractor but the trailer struck it throwing machine and driver in the ditch. Force of the impact broke the seat loose and bent the back-rest tearing Adams' pants. The tractor was broken in two with one of the big drive wheels and assembly torn off.

Had the tractor been equipped with a cab, chances of survival would have been slight. As it was,

Adams was brought to Vulcan hospital by Fred Fleming, who farms near 4-Way Service Station, scene of the accident. X-rays revealed no broken bones but he was badly bruised and hospitalized for a week. The truck driver received only minor injuries.

Cause or blame for the accident has not been ascertained, nor is it known what action will be taken by the parties involved.

**CHRISTIAN MARRIAGE**  
I have had this question put to me many times recently: "Should a person who does not go to church be married in a church?" My answer has always been NO. The word "Church" means two things — "God's People" and "The Place where God's people congregate to worship."

The two meanings are inseparable. If you are a true child of God — that means a person who accepts the Lordship of Jesus Christ in your life — you will want to go to the congregation of God's people in order to worship God.

It is true that there are many people who attend church services who are not as yet committed to Christ. Such people, when they become committed, will usually go through the procedure that enables

them to take part in the Holy Communion.

It stands to reason, that a person who does not go to church at all cannot fall into any of these categories. To him the marriage service is meaningless because God himself is meaningless. And it is a foolish thing, to say the least, to go through a ritual that has no meaning, especially when such an important thing as marriage is concerned. There is nothing to say that non-Christians getting married now, might not come to a belief in Christ at a later date, indeed that is the church's fervent hope. When this takes place — the couple, however young or old they may be, can always come to the church for God's Blessing on their marriage.

### DINTON

#### W.A. MEETING

The May meeting of the Dinton W.A. was held at the home of Mrs. Ronnie McKeage on Thursday, May 26 with all members present.

Mrs. McKeage presided and led the devotional. Mrs. Clayton Thurber read the Scripture passage, and an inspirational based on this passage was given by Mrs. Urban Bricker. Mrs. Frank Thurber gave the financial report of the afternoon tea and demonstrated by Terrill's Flowers. This was a real financial success and W.A. members wish to thank all who contributed to the bake table or made cash donations.

A long and interesting letter from Miss Winnifred Gray, R.N., giving the annual report of Maple Leaf Hospital, Kangra, India, was read by Mrs. Jack Thurber. Miss Gray reports that rain is greatly needed to save crops and replenish reservoirs in India. There is a great deal of real poverty and the phenomenal birth rate prevents the country from progressing and maintaining a reasonably good standard of living.

As St. Thomas Church at Dinton will be celebrating its 60th Anniversary in the late summer the W.A. is already making plans. The committee in charge is comprised of Mrs. Bricker, Mrs. Frank Thurber and Mrs. Clayton Thurber.

Mrs. Ronnie Bird was called on and on behalf of the W.A. she presented Mrs. Gordon Laycraft with a set of Corning Ware casseroles. Mr. and Mrs. Gordon Laycraft and family are now living in Arrowwood where Gordon is grain buyer for the Pioneer Grain Company. Mrs. Laycraft thanked the members very appreciatively and invited all to visit her in her new home.

Roll call was answered with plants which were auctioned, each member auctioning her own donation. A very tidy sum was realized. A lovely lunch was served.

## Sluggish Kidneys May Bring Restless Nights

If you "fight the pillow," toss and turn all through the night and don't really know why — perhaps here's news and help for you! One cause of such restlessness may be traced to sluggish kidney action. Urinary irritation and bladder discomfort may follow. The result can be backache and restless nights. This is when Dodd's Kidney Pills can help bring relief. Dodd's stimulate kidney action, helps relieve the irritated condition that causes the backache. Take Dodd's, and see if you don't feel better, rest better. Don't wait. Ask for Dodd's Kidney Pills at any drug counter. Used successfully by millions for over 70 years.

### HORTICULTURAL TOUR

There has been some interest in having a day long tour of some area of horticultural interest. We have a number of choices — perhaps the Brookfield Horticultural Station or the Calgary Campus or even the Lacombe Experimental Station. In any event there are a number of locations which have a suitable selection of trees, shrubs, and other plants. The big problem is, are there enough people interested in a one day tour to one of these places.

We could leave in the morning about 8:00 a.m. from Vulcan and plan to be where we wanted to tour well before lunch. If everyone brings their own lunch, I'm sure that we can provide suitable refreshments to wet your whistle. Then after lunch we could continue with our guided tour until about 4:00 p.m.

If you might be interested in a tour of this kind in July, let us know so we can plan.

### LAWNS

There have been a number of requests regarding lawns. In fact we have had to re-order some of our bulletins about lawns and Lawn Care to keep an adequate supply. For those who haven't yet been able to obtain one of the lawn bulletins, I'll just put down a few of the questions and answers which have been most common.

No. one question you've guessed it, "How do I get Quackgrass out of my Lawn?" Answer: There is no chemical which will do the job. If the lawn is very badly infested perhaps you should kill all the grass and re-seed next year. "How much should I Fertilize?" What type of fertilizer should I use?" A suitable fertilizer should be applied once or twice a year.

### BE PREPARED

Don't let your retirement find you unprepared. If you are afraid your income will be insufficient, try living on the estimate amount for a month while you still have a regular salary. You can find ways of economizing by experimenting.

**ALBERTA HEALTH PROGRAM**  
This week I thought it would be a good idea to remind anyone that is planning to enroll in the Health Program to do so. The open enrollment period is effective now and it is suggested that we should have applications submitted before June 15 to assure 'us coverage effective July 1, 1966.

Some 40 health insurance firms are approved carriers of our Alberta Health Plan and/or extended benefits Plan. Persons applying for non-subsidized enrollment may enroll directly with the insurer of his choice. Similarly, subsidized enrollees must complete with the company of their choice an application for subsidy form which is

available through the insurer.

The Government of Alberta will pay a percentage of the premiums for both portions of the Alberta Health Program, the Medical Program and the Extended Benefits Plan for those Alberta residents in the following income brackets: (a) no taxable income, 80%; (b) taxable income below \$500, 50%; (c) taxable income below \$1000, 25%.

Benefits under the Alberta Medical Program provide for payment of medical, surgical, and obstetrical services of any physician, specialist services, anaesthetist services, lab services and certain diagnostic aids.

Benefits under the Extended Benefits Plan include approved prescription drugs, optometry, physiotherapy, psychology, ambulance, radium bandages and other medical supplies, aids and appliances, osteopathy, chiropractic, podiatry, and naturopathy.

For further detail I would advise that you contact your local insurer as soon as possible.

### A Fine Band

"This is the finest senior band I conduct" said Band Leader Art Dee Monday evening, May 30. He was referring to the Vulcan County Band which at that time was playing a concert in the elementary school auditorium.

The band was organized just three years ago and well over half its present members had never before played band instruments. Mr. Dee is the leader of bands in Calgary and at several towns outside of Calgary, so his remarks can be considered as high praise.

Greater public support would no doubt be appreciated by the Band Association, which actually comprises the senior band and a junior band. Attendance at recent concerts throughout the county has not been large, but the audiences have been most appreciative and the band is certainly in great demand for parades and other public events.

Residents of the county can be justly proud of this band. Your interest and support is the greatest encouragement that can be given.

### San Francisco Visitors At Gottenbergs

Mr. and Mrs. Fred Gottenberg, for the past two weeks have been entertaining Mrs. Gottenberg's cousin Mrs. Valérie DeBaun from the San Francisco area. May 29 both Gottenbergs families with Mrs. DeBaun spent the Sunday with Fred Gottenberg's daughter and family, the Dean Rolfsens at Raymond where both Mr. and Mrs. Rolfsen are teachers in the Raymond school system.

Anne Rolfsen, oldest of three daughters of Mr. and Mrs. Rolfsen, had just returned from the University of Utah in time for the family gathering. June 6 she left the Calgary airport for a tour of Europe but will return in time for her fourth year at the University at Provo this fall.

## Trip To B.C. Ends Suddenly

Three Calgary youths all 13-years-old or under, who were allegedly going to the B.C. bush to work on May 24th, had their future plans curtailed when they were returned to the city next day by R.C.M.P.

Their method of transportation was in question as they used two cars, both stolen, to get them as far as Blairmore where they were stopped.

The trio first picked up an older model car at Calgary and got south of Mossleigh in the evening before running into engine trouble. They stopped at the Harry Washburn farm where Mrs. Washburn couldn't help them but agreed to drive them to Vulcan. At Vulcan they found Mrs. Edythe Gottenberg's car unattended and made off with it.

Later when Mrs. Gottenberg found that her missing car was not part of some friendly joke, she contacted local R.C.M.P. who sent out the radio description which led to the apprehension of the boys in the Pass area.

The young thieves were brought back to town police at Vulcan and were then sent on to Calgary where they were to face trial in juvenile court.

Two Centennial Projects  
Slated For Carmangay

(By Carmangay Correspondent)

A meeting of the Centennial Committee was held recently and plans for the projects were discussed at some length. In order to encourage everyone to take part in these projects it was decided to have the children of the community get involved right at the beginning and they did so with enthusiasm. Last Saturday they gathered together with hammers and crowbars to demolish the fence around the old skating rink so that work on the new rink can be started in the near future. The centennial committee chairman, Mrs. Barbara Hwozdecki, suggested that the committee divide up into two groups to work on the two projects, the skating rink and the park-playground. Since Frank Teskey and Syd Thompson had already done a good deal of research

on these projects it was decided that Frank should head up the rink group and Syd the playground group.

Of course every committee member and everyone in the community is expected and welcome to work on either or both projects as the need arises. It is hoped that these projects will catch the interest of everyone and suggestions and volunteers on both projects will be welcome. Work groups will be getting busy very soon.

Committee members to contact for any information regarding these projects are: Chairman, Mrs. Barbara Hwozdecki; secretary, Mrs. Gladys McGinnis; treasurer, Mrs. Mildred Lehto; Frank Teskey, Syd Thompson, Lydia Anderson, Jervis Brownell, Elnora Anderson, Bob Hubka, Henry Fraser.

## Vulcan Goodwill Day Sparkles

(Continued From Front Page)  
half of his collection to Vulcan Mr. Halmrast had over 200 guns laid out on tables and on a peg-board wall display, with no duplicates among them and two that dated back to 1779, and others of the U.S. Civil War years.

Over 100 spectators gathered at CCHS auditorium at 4:15 to watch the Drama 10 class, under direction of Mrs. Russell Graham, enact the short play "Women In Council."

The water at the swimming pool was alive with a throng of youngsters sampling this joy for the first time this year.

At the Vulcan Theatre, two shows, one at 4 p.m. and the other at 8 drew very good crowds with adults comprising the majority in the evening.

Meanwhile, downtown at barbecue headquarters preparations went on all afternoon for the beef feed and by 4:30 the supper crowd was funneling in from the various activities to the aroma from the ovens, manned by Bert Ohler and Pat Roe. The first diners sat down at 5:15 and for two hours about 20 handymen under chairman Bill Richardson kept their heads grimly into their work trying to whittle down a steady lineup three or four deep that stretched half a block in length.

During the feast a two hour program was supplied by music from the Vulcan County Band under direction of Art Dee.

Following supper, fans thronged the Legion Hall for an hour of bingo. This was another crowded venture and helpers finally limited play when the supply of cards ran out.

## Charles Ottewell

(Continued From Front Page)

where he shared premises with Dr. Nelson, the local dentist, and lived at the rear. Next he moved to the old Vulcan Bakery building and later to the former Elves real estate building before settling in that little spot beside Robinson Stores where he sat until illness of his wife a few years ago forced him into the building at the rear of his home.

Vulcan was home to children of the Ottewells, Walter, Dorothy, Lawrence and Betty and with Dorothy at Lethbridge and Walter and Betty now at Calgary Charles is never without family company in his free time.

The tragic loss of daughter Betty's husband in an aircraft accident a few years ago and the long sickness and passing of his wife have brought sadness to the family but life has gone on for Charles and his interest in the world around him, his little shop, his customers, and his hobbies have more than sustained him.

The same old sewing machine and flat iron await his return and customers who have long since learned not to be in a hurry when calling on him will be back for another chapter in Charles' most recent past.

Winners of the two-dollar bingos were Wanda Wellman, Bobby Dumka, Mrs. D. Neville, Mrs. Rose Taews, Carol McAskile, Jean Connelly, Marilyn Ness, Deane Andrews, Mrs. Becker, Billy Richardson, Gord Blom and Mrs. H. Markert split one blackout bingo while Mrs. Ben Smith won the other.

An interesting feature of the day was the five, twenty-dollar draws which went to the following: Rose Douville (2), Yvonne Blom, Rev. Jesse Lynn and Mrs. Audrey Warren.

Meanwhile at the Armouries an orderly but packed houseful of youngsters took in the dance with Wheeler And His Spokes from Lethbridge supplying the teen-set music. The suggestion by Chamber president Ken Houlton, chaperones, Frank Jepps and Allan McAskile, that the roaring amplifiers be turned down was thrown out by the youngsters so it was three somewhat shell-shocked adults who closed everything down at 10 p.m.

During the day Vulcan Auctioneer Wally Franks kept the visitors informed of coming events, times and places with his PA system.

A.A.R.N. To Buy  
Reference Book

The June meeting of the Vulcan Chapter of the AARN was held June 1st in the Anglican Church basement. There were 15 members present. Correspondence was read and dealt with accordingly.

The Lethbridge Chapters of the AARN are having their annual banquet on Wednesday, June 22 at 7:00 p.m. in the Park Plaza Hotel. Any nurse interested please contact Mrs. A. Haga by June 15.

It was decided to buy the book "Heritage of Service" from Miss M. Sissons and to keep it at the hospital for all nurses to read. As there are no reference books at the hospital for nurses, it was decided to spend \$50.00 to pay all delegates to the AARN Convention in Calgary and spend the balance on reference books.

The convention reports were then given, followed by a very tasty lunch.

Due to the summer recess our next meeting will be held in October.

## SCHOOL FAIR

The Grade 7 and 8 classes held a School Fair in the School Auditorium, Monday, May 30. Most of the displays showed a great amount of preparation and planning. This was the first time these students had taken part in such an endeavor and much credit goes to them and their teachers, Mrs. B. Raycraft and Mrs. M. Webb for a successful afternoon. There were approximately 75 visitors who came to view the exhibits. The consensus of opinion was that several exhibits compared favorably with the Calgary School Fair that some attended last month.

The grand prize went to Catherine Elliot and Darlene Irving for "Landscaping the Home Grounds." These girls had made a model of the Elliot home grounds and had planted grass that had filled in and made a lovely lawn. They also planted replicas of trees, shrubs and a garden. It was finished with a matched picket fence and stuccoed house. They also had pamphlets, charts and sheets of information.

Other grade 7 exhibits which tied for first place were: Cloth, by Shelly Wooldridge and Anita Percival; 100 Years of Progress by Judy Jackson; Trees by Delaine Wray and Linda Percival; Plants by Susan Towland and Marilyn Raycraft; Birds by Avonell Eamor and Cheryl Douglas.

Second prizes were for: Hobbies by Leonard Vanderploeg and Terry Jones; Flight by Mark Hancherow and Gary Trewin; Medicine by Patty Parker; Radios by Paul Westersund and Firearms by Bruce Simmons.

**SNIFFING SALT WATER  
MAY BE DANGEROUS**

Sniffing salt water into and through the nose is an old fashioned home treatment which most medical authorities say can be harmful. The benefits, they state, are small or nonexistent. The pressure caused by sniffing tends to spread germs to new locations faster than it suppresses them.

Sinus trouble is primarily the obstructed flow in or out of the sinuses, which are like caves that connect into the nasal passages. A severe cold and its associated germs may swell the tissues so the entrances to the sinuses are clogged. But, a physician must look for other causes of chronic cases. He must correct the basic trouble. If medication is needed, we can fill any prescription.
